## Response to Amendment

The reply filed on January 13, 2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

The specification is still defective because page 9 still mentions "threaded holes 211" in lines 3 and 9 when the drawings do not show holes 211 being threaded. Either the specification is incorrect or the drawings need to show holes 211 being threaded.

Further, the faxes made the legend of Figures 1 and 4 obstructed by the fax stamp. See figures in PAIR. Further, sheets containing Figures 8 and 9B as filed now are on one sheet. Further, Figures 8 and 9B are stretched and the labeling of these figures are not correctly oriented. Applicant needs to resubmit the drawings and separate Figures 8 and 9B.

The drawings are objected because the ends of the broken line should be designated by Arabic or Roman numerals corresponding to the view number of the sectional view. For instance broken line A-A in Figure 1 should be II-II and broken line B-B should be V-V. See 37 CFR 1.84(h)(3).

Applicant should note that amendments to the claims filed on July 18, 2005 cannot be made after close of prosecution and the amendments to the claims will not be entered once these formal matters have been accepted.

See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
